Portfolio

KEY SKILLS & TECHNOLOGIES

Core Tech	Python (Django, FastAPI, Flask) · JavaScript (React, ES6+) · SQL / PostgreSQL · HTML5 · CSS3
ML & Data	XGBoost · scikit-learn · SHAP · Keras / Autoencoder · Streamlit · pandas · NumPy · Matplotlib · Seaborn · Jupyter
FinTech Domain	Trading systems · Liquidity & volume analysis · Risk management · Financial APIs (Binance, Alpaca, yfinance) · Pine Script
Tools & DevOps	Git / GitHub · Docker · Heroku · CI/CD · Azure AZ-900 (in progress) · Postman · VS Code · Agile/Scrum

KEY PROJECTS

Credit Card Fraud Detection - ML Flagship 2026

Python · XGBoost · SHAP · Keras · Streamlit · Heroku

github.com/SteveDok22/credit-card-fraud-detection | Live: credit-card-fraud-detection-st-4cbb00a4456a.herokuapp.com

- End-to-end ML pipeline following CRISP-DM across 7 Jupyter notebooks - data cleaning, feature engineering, model training and evaluation.
- XGBoost classifier with SHAP explainability; Autoencoder for unsupervised anomaly detection on imbalanced data.
- 7-page interactive Streamlit dashboard for real-time transaction scoring.

Sentinel Drift Engine - Real-Time KYC Risk (SwissHacks 2026) 2026

FastAPI · XGBoost · SHAP · BOCPD · Claude API

Built at SwissHacks 2026 (Tenity · SIX Group) for the AMINA Bank challenge

- Real-time KYC drift detection engine with XGBoost risk scoring and Bayesian changepoint detection (BOCPD).
- LLM-generated risk explanations via Claude API; multi-source data (OpenSanctions, GLEIF, GDELT, Zefix).

AEGIS - Secured AI Agent over Enterprise Data 2026

FastAPI · Claude API · Presidio · sqlglot · DuckDB · Angular

github.com/SteveDok22/JiVS-Trusted-Enterprise-AI-26

- Plain-language AI agent over an enterprise archive with a five-layer 'defense in depth' security design.
- 100% prompt-injection catch rate (12/12, 0 false positives), zero PII leak, PII-detection F1 1.00 across 63 tests.

PROFESSIONAL EXPERIENCE

Freelance Developer - Web, Automation & Bots 2025 - Present

Self-Employed · Zurich

- **Barbershop management system** - booking & reservations, client records, basic accounting, and a messaging bot for appointment handling, with social-media integration.
- **Hype Specialty Coffee** (Zurich brand, hype-coffee.ch) - built and shipped the brand website.
- Turn client requirements into deployed, working software end-to-end - from data handling to integrations.

Trading & Market Analyst 2022 - 2024

Pacific Trade Capital / CryptoCast (Startup)

- Worked in a multidisciplinary trading team of traders, developers and technical/fundamental analysts.
- Analysed market structure, liquidity, volatility and macroeconomic events on FX (EUR/USD, GBP/USD, USD/JPY), plus crypto and commodities.
- Translated market-specific requirements and trading logic into indicator behaviour for the team's trading tools and signals.

Independent Trader & Market Analyst 2019 - Present

Self-Directed · Crypto & Forex Markets, Zurich

- 6+ years analysing market structure, liquidity, order flow and macro events across multiple timeframes.
- Develop and test rule-based strategies with structured risk management, position sizing and predefined entry/exit conditions.
- Combine market analysis with Python and data analysis to build and test trading tools (CScalp, TradingView, custom Pine Script indicators).

Hackathons

2025 - 2026

- Energy Data Hack Days (AEW, Aargau) - **2nd place**; built an energy-fingerprint model on ~90,000 real customer electricity records.
- SwissHacks 2026 (Tenity · SIX Group) - built Sentinel Drift Engine for the AMINA Bank challenge (backend & ML).
- JiVS · Data Migration International & Infosys - built GeoRiskGuard Pro, an AI geopolitical risk platform, presented to enterprise stakeholders.

Culinary Professional - SWISS First Class Lounge

Jan 2024 - Present

GateGroup · Zurich Airport (parallel hourly contract)

- Operations and quality control in a high-standard airline catering environment; process optimisation and team coordination.

Station Chef / Chef de Partie - Michelin-Level Restaurants

2014 - 2023

Beluga · Varoulko · Hyatt Regency · Switzerland, France, Greece, Russia

- Led kitchen sections in high-pressure, detail-critical environments.

EDUCATION

RQF Level 5 Diploma in Full Stack Software Development (AI Specialization)

Completed 2026

University of the West of Scotland (accredited) | Code Institute

Microsoft Azure Fundamentals AZ-900

2026

Certification in progress

RQF Level 5 Diploma in Culinary Arts

2013 - 2016

Cardiff Metropolitan University, UK (accredited) | Swiss Alpine Center

LANGUAGES
